M918 Adapter for corner installations

P128
Extraction fan for pre-wall installation systems with ventilation

P118
Prolonged legs for pre-wall installation systems

M9006 Elbow waste connector DN90/110 flexi

M907 Reduction set DN90/110

M909 Double elbow 90° with sealing

M930CR Noise insulation for wallhung WC and bidets with accessories including cover cap (chrome)

Easy installation of WC modules and mounting frames

Anchor feet brake

The feet brake system allows setting the necessary building height of the frame and then you only ensure its final position by tightening.

Quick fixing to the wall using the EASY LOCK system

The new construction solution enables mounting the frame to the wall in half the time.

Sliding holder for waste elbow

It is possible to move the waste elbow horizontally and change its distance from the supporting frame to eight positions up to a total of 93 mm.

Marking pins for easier installation of plasterboard

The pins enable precise and quick marking of the position on the plasterboard where the cutout will be made and ensure the correct placement of the WC system.

Water supply hose with o-ring

The bayonet mechanism allows the connection of the hose and the inlet fill valve without tools. Everything can be tightened just by hand.

Extra accessories included in the package

The packaging of every product contains a complete set of installation accessories for mounting the WC bowl, including anchoring material and all necessary installation caps.
