New products in the assortment: shower drains in metallic shades (PVD)

alca

New shower drains in PVD colors bring not only an elegant appearance, but also maximum durability. Choose a shade that perfectly matches your bathroom – a charming rose gold, dazzling gold, modern gun metal or another color with brushed finish.

All colors match the Individual product line and thus make it possible to unify the entire interior in color.

Space-saving furniture trap for renovations and new buildings

Bathroom solution without compromise

The trap shape is designed to provide maximum space under the washbasin for drawers and shelves. Despite its compact design, our trap has high flow rate. Easy service – the trap can be cleaned directly in the bathroom cabinet.

Features

- Space-saving furniture trap
- Especially suitable for cabinets under the washbasin
- Connection to waste pipe DN40 and DN32 mm
- Easy to clean
- Flow rate up to 34 l/min
- Odour trap 50 mm
- Material: polypropylene
- Can be connected to standard 5/4" outlets
- Complies with EN 274

Plastic exposed cisterns A930 and A940

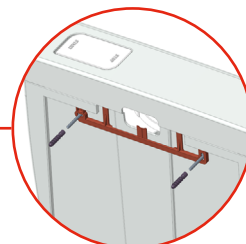

A930 DUAL 3/6 L

Thanks to two separate buttons, you can easily choose between a small and a large flush, while the water volume can be individually adjusted to your preferences.

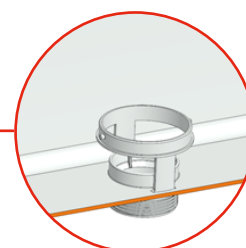

A940 START-STOP ECOLOGY

Press one side to activate the flush, press the other side to stop it at any time. You only use as much water as is actually needed.

Faster toilet cistern replacement

The spacing of the mounting holes for the bracket is compatible with the established market standards while also maintaining compatibility with the original mounting system. That means when replacing an older Alca cistern, the original brackets can be used.

Easier toilet cistern installation

The pre-installed flush valve and reduced number of parts required for the assembly significantly simplifies and speeds up the installation of the cistern.

fast installation

no tools needed

all in package

Exposed cisterns overview

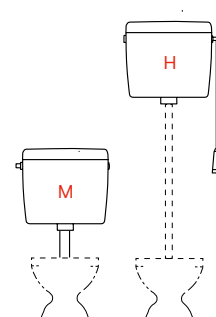

There are basic product variants for the middle level cistern position as well as a universal versions containing complete accessories.

Code	Title	WC cistern positioning		Water connection	Packaging/pallet
		high level position	middle level position		
A930-H-1/2"	Toilet cistern UNI DUAL universal, white	•	•	1/2"	65
A930-H-3/8"	Toilet cistern UNI DUAL universal, white	•	•	3/8"	65
A930-M-1/2"	Low level toilet cistern DUAL, white		•	1/2"	65
A930-M-3/8"	Low level toilet cistern DUAL, white		•	3/8"	65
A940-H-1/2"	Toilet cistern UNI START-STOP universal, white	•	•	1/2"	65

WC system with split frame AM122/1120D – clever design ideal for 5-in-1 sets

This WC system was designed to fit into a **single box as a 5-in-1 set**, along with a flush plate, noise insulation board, wall-hung toilet bowl and WC seat.

WC SYSTEM WITH SPLIT FRAME

Thanks to the frame's split construction into two parts, the packaging space is used with maximum efficiency, which simplifies logistics, storage, and sales – everything needed for WC installation is in one place, in a single package.

400 kg load capacity

fast installation

all in package

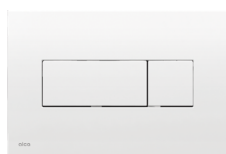

INSTALLATION CAN BE DONE BY 1 PERSON

The new construction is lightweight, yet it maintains full load-bearing capacity, quick wall mounting, and anchoring foot brakes for stable installation.

ANCHOR FEET BRAKE

The feet lock system allows setting the necessary building height of the frame and then ensures its final position by tightening.

Other parts of the set

M370
Flush plate for pre-wall installation systems, white-polished

M91
Noise insulation for wall-hung WC and bidets

Double connectors for two appliances – space-saving version with G1" connection

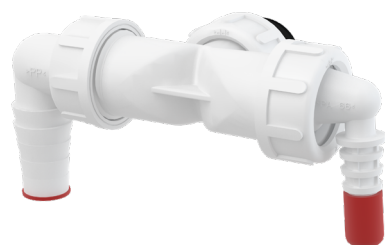

We are introducing new variants of double connectors **P155Z-G1** and **P156Z-G1**, which fully replace the existing P148Z and P149Z models. Thanks to its more compact dimensions, **it saves space**, which you will appreciate especially in smaller apartments and during renovations. The new design with practical threaded connection ensures **easier and safer connection**. The connector also includes a check valve that protects the second appliance from being washed out and a baffle that directs the flow of water inside the connector for reliable operation.

Complete range of connection kits for wall-hung WC – solution for every situation

M900K-DN90

WC accessories set for wall-hung
WC – DN90, 200 mm, PE, chrome

M900K-DN110

WC accessories set for wall-hung
WC – DN110, 200 mm, PE, chrome

M9000K-DN90

WC accessories set for wall-hung
WC – DN90, 300 mm, PE, chrome

M9000K-DN110

WC accessories set for wall-hung
WC – DN110, 300 mm, PE, chrome

M900KE-DN90

WC accessories set for wall-hung
WC – DN90/110, 25 mm, PE, white

M900KE-DN110

WC accessories set for wall-hung
WC – DN110/110, 25 mm, PE, white

M9001

Extended connector to be used
with WC for people with reduced
mobility, 300 mm

Changes in dimensions and material

Selected products (M9000, M147 and M148) are now shortened to the standard 300 mm. Thanks to this, you can place more pieces to package and reduce transportation costs. They are now also made of weldable polyethylene for a stronger and a more universal connection.

M9000

Complete extended accessories to
be used with WC for people with
reduced mobility – DN90, 300 mm,
PE, white

M147

Extended connector to be used
with WC for people with reduced
mobility, 300 mm

M148

Extended connector to be used
with WC for people with reduced
mobility, 300 mm
