Create more space

Space-saving washbasin waste and trap

**The innovative design saves space
in your washbasin cabinet**

The trap shape is designed to provide maximum space under the washbasin. Despite its compact design, our trap has high flow rate. The water drains quickly, thus ensuring cleanliness and hygiene.

Features

- Space-saving waste and trap
- Especially suitable for cabinets under the washbasin
- Connection to waste pipe DN40 and DN32 mm
- Flow rate 41 l/min.
- Odour trap 50 mm
- Material: polypropylene
- The washbasin outlet is not included in the package

Alca always strives to bring innovative solutions to the sanitary equipment and this washbasin trap is a result of our effort to combine functionality and space saving. Enjoy more space in your bathroom with our space-saving washbasin trap without compromising on quality and performance.
