News 2024 | Main benefits

Easier application of mortar

Newly, the WC system is equipped with a pre-installed fibreglass plaster reinforcing mesh to facilitate installation on the construction site.

Silent and fast filling

The new fill valve is twice as fast, extra quiet and exceptionally resistant to impurities contained in the water.

Safe and easy water connection

Angle valve Alca. Water supply hose with o-ring. Installation without tools.

Spare parts

Guarantee of 25 years on the availability of all spare parts.

Flush plates compatibility

They are fully compatible with all Alca pre-wall installation systems.
